

Internet Invoice Finance

Manage Receivables Finance processes online
and in real time

Get up-to-the-minute information on Invoice Finance account balances and collections details, as well as the ability to upload invoices, run reports and more with our user-friendly, secure Internet Invoice Finance system.

Business moves pretty quickly today. To stay ahead of the competition, you need to make decisions in an instant. And to do that, you need the most current and accurate information available on all your accounts.

To help, our Internet Invoice Finance system gives you real time access to your HSBC Invoice Finance accounts in a secure, web-based environment. Here you can connect with HSBC directly and get fast decisions on credit limits and new customer accounts so you can close deals quickly. You'll also have complete control over your entire Receivable Finance program with the ability to send invoices to HSBC electronically, check balances, draw down on funding and more.

HSBC's Internet Invoice Finance delivers

- A sophisticated, easy-to-use system;
- Up-to-date information;
- Secure communications channels;
- Increased efficiency;
- Simplified processes.

Gain control over your Invoice Finance management – any time, anywhere

Everything you need regarding your Invoice Finance program can be found online, 24/7, through our Internet Invoice Finance system. This state-of-the-art portal gives you access to your sales ledger in real time including details on balances, funding calculations and collections activity. You can also exchange secure messages with HSBC to initiate requests for drawing down on available balances, increasing funding and credit protection limits or adding new customer accounts. With this streamlined communication channel, you get the answers you need quickly to keep your business moving forward.

Internet Invoice Finance is designed in the same user-friendly environment as all of HSBC's online services, making it easy to get up and running quickly. This is combined with a host of tools and resources including the ability to run reports in a variety of formats, view useful "how to" guides, access templates for general stationery and more.

Send invoices to HSBC electronically quickly and easily

To speed processes, you can use Electronic Data Interchange (EDI) to transmit invoices to HSBC. This saves you time and money by eliminating the need to photocopy and send hardcopies by post. Instead, you simply save invoices in a file and upload them directly to HSBC via the Internet Invoice Finance system. There's no additional cost for this service, and no limit to the number of files or invoices you can send. You receive an automated response to confirm receipt of each transmission, and HSBC does the rest – updating your sales ledger overnight with all invoices received by 7.00pm local time.

In the event that your accounting package doesn't support EDI, we'll work with you to develop a solution customised to meet your needs.

Turn the HSBC advantage into your competitive edge

With nearly a century-and-a-half of experience behind us, HSBC offers you the powerful mix of global reach and local knowledge. As a result, you have access to the expertise, security and fiscal strength of one of the world's leading financial institutions combined with the reliability, service, character and integrity of a local bank.

Contact points

To learn more about how HSBC can help your company compete globally and turn invoices into cash faster, we invite you to contact your HSBC Relationship Manager or Invoice Finance specialist today.

If you do not have a Relationship Manager, or are not an HSBC customer, call our Business Banking Direct on 2380 8000 or email us on receivablesfinancemalta@hsbc.com.

Our lines are open from 8.00am to 5.00pm Monday to Friday (excluding public holidays).

Let us show you how we can put the world's leading international bank to work for you.
